1.5 million households are still in water poverty in England and Wales – this number is likely to increase as the cost of living rises and the financial effects of Covid-19 continue to be felt.

At this event, we reflect on what's changed in the 12 months since we carried out an Independent Review of Water Affordability, and explore why now is the right time to take the necessary steps to end water poverty for those struggling to pay their water bills in England and Wales.

Our speakers are:-

- (i) Joanna Gulliford, Welsh Government
- (ii) Mike Keil, CCW
- (iii) Rebecca Woolley, Citizens Advice Cymru
- (iv) Morgan Bestwick, Joseph Rowntree Foundation

After we have heard from the first two speakers the Chair will open the meeting up for an initial discussion on the issues raised. There will be a second discussion session after we have heard from all of the speakers.
